EDUCATION

Florida State University | Tallahassee, FL

B.S. in Computer Science | GPA: 3.9/4.0   **Aug 2024-Present**

Relevant Courses: Calculus I and II, Data Structures and Algorithms, Introduction to Programming

TECHNICAL SKILLS

Programming Languages: Java, Python, C/C++, HTML, CSS, JavaScript

Operating Systems: Windows, Linux

PROJECTS

- **Portfolio Website**   **Dec 2024**

  The website you are currently using. Used HTML and CSS in order to create a website that serves as an introduction to my programming experience and goals.

- **Todo List Website**   **Dec 2024**

  Utilized HTML, CSS, and JavaScript in order to create a Todo List that displays each task along with its due date, due time, and time until due. Functions based upon user input and buttons.

- **Email Spam Identifier**   **Oct 2023**

  Created a machine learning model that determines whether or not emails are spam with approximately 98% accuracy on a testing set. The model was trained upon a given labeled dataset that I then cleaned before use.

- **Housing Price Prediction Model**   **Sep 2023**

  Used data parsing resources to create a dataset of housing features in a chosen area (Philladelphia). Analyzed these features and created a ML model to predict the price of a house within the area given several features.
